

3. methods and ways of calling a method

1: package mounika3;

```
public class call {  
    public static void printName(String name) {  
        System.out.println("my name is " + name + "!");  
    }  
    public static void main(String[] args) {  
        String name = "xxx";  
        printName(name);  
        String name1 = "yyy";  
        printName(name1);  
        String name2 = "zzz";  
        printName(name2);  
        String name3 = "aaa";  
        printName(name3);  
    }  
}
```

2: Integer calling method

```
package mounika3;

public class number {

    static int add(int x, int y) {

        int sum = x + y;

        return sum;

    }

    public static void main(String[] args) {

        int x = 10;

        int y = 20;

        int z = add(x, y);

        System.out.println(x + " + " + y + " = " + z);

    }

}
```
