

5) Implementions of collections

```
package mounika5;

import java.util.ArrayList;

public class collect {

    public static void main(String[] args){

        ArrayList<String> clouds = new ArrayList<>();

        // Add elements

        clouds.add("white");

        clouds.add("shape");

        clouds.add("High");

        System.out.println("ArrayList: " + clouds);

    }

}
```
